The Association of Fundraising Professionals (afpglobal.org) is the professional association of individuals and organizations that generate philanthropic support for a wide variety of charitable organizations. Founded in 1960, AFP advances philanthropy through its 25,000+ members in more than 180+ professional chapters around the world. AFP’s individual and organizational members raise more than $115 billion annually.

So that it can promote stewardship, donor trust and effective and ethical fundraising, AFP:

- Requires members to comply with a Code of Ethical Principles and Standards that is designed to provide concrete guidelines for fundraising professionals in philanthropic organizations and is the only enforced code in the profession.
- Is dedicated to ensuring that anyone entering the profession—regardless of any factor or characteristic—will be treated fairly and respectfully and will have opportunities to find success in fundraising, however they define it. AFP addresses inclusion, diversity, equity and access (IDEA) in the profession through its IDEA programs.
- Provides educational programs about fundraising, including the annual International Conference on Fundraising (AFP ICON), the world’s largest event for fundraising professionals.
- Offers career and leadership development programming for all fundraisers through its Career Center, collaborations with Korn Ferry and AFP LEAD, the fundraising profession’s conference on leadership and management.
- Encourages research on fundraising and philanthropy, including the Fundraising Effectiveness Project, which looks at how charities can be more efficient in their revenue generation; and the annual Compensation and Benefits Report.
- Encourages networking and the development of mentors in the profession through the association’s mentorship programs; AFP Connect (an online forum for members to ask questions and connect with colleagues around the world); and online affinity groups.
- Raises public awareness and interest in philanthropy through programs such as National Philanthropy Day® (recognized in the U.S. and Canada by federal government) and supporting legislation and regulations that encourage philanthropic giving and ethical fundraising.
- Is an original founder of and current participating organization in a worldwide certification program through Certified Fund Raising Executive (CFRE) International. AFP also provides the Advanced Certified Fundraising Executive (ACFRE) credential for senior professionals.
