AFP's Code of Ethical Principles and Standards

AFP members adhere to the strongest enforced code of ethics and standards of practice in the profession. The *AFP Code of Ethical Principles and Standards* defines the ethical values and practice standards that AFP members embrace and strive to uphold in their responsibilities for generating philanthropic support. Only through a strong dedication to ethical fundraising can the profession ensure public trust and confidence in the organizations that donors support.

A Donor Bill of Rights

To ensure that philanthropy merits the respect and trust of the general public, and that donors and prospective donors can have full confidence in the nonprofit organizations and causes they are asked to support, AFP along with the Association for Healthcare Philanthropy (AHP), the Council for Advancement and Support of Education (CASE), and the Giving Institute created *A Donor Bill of Rights*.
